INTRODUCTION

Born in South Korea and raised in Egypt, I'm now studying in an American university in the UAE. This diverse upbringing nurtures my ability to view problems from various perspectives and embrace differing opinions. Committed to applying my knowledge, learning from others, and growing through experiences, I have a strong passion for computer science. My proven work ethic, alongside strong teamwork, organization, and problem-solving skills, make me an invaluable addition to any team.

EDUCATION

New York University Abu Dhabi, Abu Dhabi, UAE
Bachelor of Science, Computer Science

Aug 2019 - June 2025

**(2 years gap due to military service in South Korea)*

Cairo American College, Cairo, Egypt
International Baccalaureate Diploma

Aug 2011 - June 2019

WORK EXPERIENCE

Fortyguard
Intern

April 2023 - July 2023

I was primarily responsible for conducting research on studies and potential target markets, collecting and analyzing data, and assisting in the development of algorithms and models to process, analyze, and visualize the collected data.

GrapeVine Edu (STARTUP)
CEO

June 2022 - July 2023

The main goal of GrapeVine Edu was to connect Korean students that wish to study in American universities with American university students as mentors and tutors. Our profits were based on mediating these connections.

Private Tutoring
Taught ~25 students

May 2019 - Now

I mainly teach subjects from the IB, AP, and SAT. I also mentor students and provide motivation towards learning and studying to build self-confidence and reduce fear of failure. I also provide individualized coaching and activities.

Namu Consulting Seoul, South Korea
Worked as a part-time

Sept 2020 - November 2020

I helped with the overall management of students by developing and organizing study plans and schedules. I also helped with school assignments and test preparation and worked with students on university applications.

Writing Center Advisory Panel NYU Abu Dhabi
Freshman Student representative

Sept 2019 - April 2020

We successfully advertised and promoted the Writing Program and Center. Main achievements included successful workshops and enhancing the writing prompt of the Candidate Weekend, a part of the admission process.

LAB AND RESEARCH

Social Science Experimental Laboratory (SSEL), NYU Abu Dhabi
Research Assistant

Oct 2022 - May 2023

I was responsible for coding experimental projects, extending research and programming support to capstone students, maintaining the lab's website, and supporting the research conducted at the SSEL.

High Performance Computing Lab NYU Tandon
MLPerf Inference Team

Sept 2023 - Dec 2023

My main research focus was optimal hardware and benchmarking. Our team actively prepared for the Student Cluster Competition, working on performance optimization and innovative MLPerf Inference solutions.

SKILLS

C, C++, Python, R, Java, Javascript, Web Development, Data Structures, Algorithms, Machine Learning
